Iowa

a place to grow

January 20, 1971
Vern Perry, Editor
362-1269

NEXT WEEK--January 27, 1971

Roosevelt Hotel--Waldo Wegner, Director of the Center for Industrial Research and Service (CIRAS) discussing some "Interesting Industries in Iowa". Wegner's presentation will be illustrated with slides showing some of the lesser known but important contributors to the economy of the state.

THIS WEEK

Iowa Electric Light & Power Company Attorney Ted Lewis spoke to us on the "Effect of IE's Palo Nuclear Energy Plant Upon the Environment of the Area". With concern for their friends, neighbors and customers, IE and their two Power Cooperative partners are taking every precaution to assure that the surrounding environment will not be affected by operation of the new power plant. In order to have data for comparison, 14 test stations are being established to gather information on the environment as it exists today. Readings will be taken monthly for three years prior to the beginning of plant operation. Construction is on schedule and it is anticipated that the plant will be ready to go early in 1974.

Ralph Dresher advises that the difference between the Monticello, Minnesota plant and the Palo plant is that the Palo plant will use large cooling towers to reduce the temperature of the condenser water prior to its being returned to a reservoir or lake. The combination of cooling towers and reservoir will alleviate the Monticello-type problem where the cooling water is returned directly to the river and is understood to raise the temperature of the Mississippi in the vicinity of the plant as much as 18 degrees.

After investigation, IE decided that a cooling tower and a reservoir is a much better solution to the cooling problem than deep wells. IE has offered the State Conservation Commission \$1 million to help construct a lake and recreation area northwest of Palo on Pleasant Creek. The wells were estimated to cost in the vicinity of \$950,000. The Conservation Commission is interested and it appears we may look forward to having a 1,300 acre park with a 400 acre lake within easy driving distance within the next three to five years.

Other points of interest from the podium--Solid and liquid wastes from the plant will be shipped in thick metal containers for burial in dry mines or pits. GE has recently developed a new process to substantially reduce the volume of the liquid waste. The radioactive material in the flu gases is of such short life and such low level that it probably won't be carried beyond the boundaries of the power plant. The assessed value of the facility at Palo will be in the vicinity of \$150 million. When in operation in 1974, the new plant will handle the basic load, with the 6th Street and Prairie Creek plants being called upon to handle the peaks during the 24-hour operation. Ralph Dresher indicates that by 1977, all three plants will be required full time--if the customer requirements develop as predicted.

INTERCLUB--CENTRAL CITY

An interclub is planned for Tuesday, January 26. Anyone who can make it is encouraged to meet at the Roosevelt Hotel at 5:15 P.M., 2nd floor and travel with the group to Central City. Norril Rogness is coordinating the arrangements.

PICK YOUR TABLE

President Jim Luhrs requests that committee members sit with their fellow committeemen for lunch next Wednesday. The tables will be identified with the name of the committee.

ACHIEVEMENT COMMITTEE REPORT

Achievement Committee Chairman Ed Colton gave his 3-minute committee activity report without so much as coming up for air! As a result, I am sure that I didn't get recorded nearly all of the points that he mentioned. Activities of the committee include such continuing projects as the Bruns Scholarship Fund, the monitoring and coordinating of the "achievements" of other committees, etc. and Ed took this opportunity to announce to his committee and the rest of us, a plan to work with other community organizations and the schools on projects of general benefit to the community. But, Ed, I got lost. Please give us more details on this "project" plan.

ED BRUNS SCHOLARSHIP FUND

Ralph Dresher reports that \$70,00 has been added to the Ed Bruns Memorial Scholarship Fund. The new total is \$1,130. A letter has been received from the Chicago Art Institute indicating that they will be glad to work with the Cedar Rapids Downtown KIWANIS to administer the Bruns Scholarship. The availability of the scholarship will be noted in the new issue of the Institute's catalog.

SEVEN NEW MEMBERS!

Dick Landis reports that the Membership Committee expects to be able to report that they have achieved their goal of seven new members by February 17, 1971!
